

Community Strategic Plan
2025–2035

Horizon 2040

Liverpool
Plains
Shire Council

This Community Strategic Plan builds on the foundations of our existing 2022 plan and represents a refresh, rather than a complete redevelopment, ensuring continuity and alignment with community priorities.

Acknowledgement of Country

The Liverpool Plains Shire local government area sits within Kamilaroi Country.

In the spirit of reconciliation, Liverpool Plains Shire Council acknowledges the Kamilaroi people as the traditional custodians of the land and pays respect to Elders past, present and future and we extend our respect to all Indigenous Australians in the Liverpool Plains Shire.

We recognise and respect their cultural heritage, beliefs and continuing connection with the land and waterways. We also recognise the resilience, strength, and pride of the Kamilaroi community.

Welcome

This Community Strategic Plan is an important document for the entire Liverpool Plains Shire community. It captures our shared aspirations, priorities and values. It tells a story of what is important to us and the future we want for our community, through answering four key questions:

1.

Where are we now?

Liverpool Plains Shire Council has an important role as the custodian of this Community Strategic Plan. With the election of a new council in September 2024, NSW Integrated Planning and Reporting (IP&R) legislation requires that we review and update our Community Strategic Plan to ensure it continues to reflect our community's aspirations and priorities. Just like you, we love the Liverpool Plains and that is why looking towards tomorrow and planning for our future is such an important task.

As a result, this Community Strategic Plan builds on the foundations of our existing plan and represents a refresh, rather than a complete redevelopment, ensuring continuity and alignment with community priorities.

2.

Where do we want to be in 2040?

Your aspirations and priorities have remained consistent since we last reviewed this Community Strategic Plan in 2022. We heard that continuing to improve Liverpool Plains Shire Council's financial sustainability and overall performance remains a key priority for our community, as is improving our extensive road network and water supply infrastructure. Ensuring ongoing access to quality health and education services is critical, and growing the Liverpool Plains — both our community and economy — is an important challenge ahead.

While Liverpool Plains Shire Council is responsible for developing this Community Strategic Plan, delivering our shared vision is not something we can achieve in isolation. Our success is entirely dependent on strong partnerships and genuine collaboration with a wide range of stakeholders — including government agencies, business and industry, sporting and service clubs and non-government organisations, and of course, our community.

3.

How will we get there?

Thank you for your involvement in developing this Community Strategic Plan, and your ongoing feedback and participation in community life. We invite you to join us on this journey towards 2040 and help take this plan from vision to action.

4.

How will we know when we have arrived?

Message from the Mayor

The Liverpool Plains Community Strategic Plan was first developed in 2022 and with a newly elected council on board, we have gone back to the community to confirm that the community's vision, aspirations and priorities for the future haven't changed.

The community has told us once again that the priorities remain the same, with a focus on financial sustainability, roads, water management, health services, growth management and housing just to name a few. While the core of the plan remains largely unchanged, it's important to recognise that this is a document created by and for the community, meaning everyone has a role in taking ownership of the parts they can influence.

Also, we can't tackle everything right away, but by working together, the council, community and key organisations can prioritise what's most important. Community partnerships are key, by listening to the needs of the community and sharing ideas, we can take effective steps toward progress. It's about finding solutions that work for everyone.

We encourage you to revisit the Community Strategic Plan and let us know if there's anything we may have missed.

Thanks for being involved!

Councillor Ken Cudmore
Mayor, Liverpool Plains
Shire Council

The Liverpool Plains
Shire provides the best
of country living.

Our
vision

Our community is active, engaged and inclusive, and we benefit from strong leadership to carry us into the future.

Our unique landscapes and natural environment are valued and preserved, and our quality services and infrastructure support a thriving economy and growing population.

Integrated planning and reporting

This Community Strategic Plan documents the shared vision, aspirations and values of our community. It serves as a long-term plan for Liverpool Plains Shire to 2040 and identifies the key priorities and strategies for achieving our vision.

Under the *Local Government Act 1993*, Liverpool Plains Shire Council is required to undertake long-term strategic planning, informed by comprehensive community engagement, known as the Integrated Planning and Reporting (IP&R) framework. This process supports Council in developing a clear vision for our community's future and provides a roadmap for delivering community priorities in a sustainable manner.

The Community Strategic Plan sits at the heart of our IP&R framework and informs all long-term planning for the future of the Liverpool Plains Shire local government area. While Council has a custodial role to play in preparing and reporting on this plan, all members of our community — as well as other stakeholders, such as State and Federal Governments — have a role to play in achieving our vision and strategic priorities.

Community Strategic Plan

The Community Strategic Plan is the highest-level plan that Council prepares through its IP&R framework. The purpose of the Community Strategic Plan is to identify the community's main priorities and aspirations for the future and to plan strategies for achieving these goals. All other strategies developed as part of the IP&R framework relate to, and support, the Community Strategic Plan.

Community Engagement Strategy

The Community Engagement Strategy outlines how Council engages with the Liverpool Plains Shire community and other stakeholders to develop the Community Strategic Plan, as well as other plans, policies, programs and key activities undertaken from time-to-time.

Delivery Program

The Delivery Program is prepared by the incoming governing body and identifies the principal activities and functions to be undertaken by Council to perform all its functions — including the strategies established by the Community Strategic Plan — using the resources identified in the Resourcing Strategy. All plans, projects, activities, and funding allocations made by Council over its four-year term must be directly linked to the Delivery Program.

Resourcing Strategy

The Resourcing Strategy demonstrates how the four-year Delivery Program and annual Operational Plans will be resourced from an asset, financial and workforce perspective. The Resourcing Strategy comprises three individual, but related, plans: the Strategic Asset Management Plan, Long-Term Financial Plan, and Strategic Workforce Management Plan.

Operational Plans

Annual Operational Plans support the four-year Delivery Program. The Operational Plan outlines the individual projects and actions that will be undertaken in a specific financial year to achieve the commitments made in the Delivery Program. The Operational Plan includes Council's Budget for that financial year, and details the rates, fees and charges to be levied by Council during that year.

Informing strategies

Council develops a range of other strategies to inform our IP&R framework and guide the priorities and actions in our four-year Delivery Program and annual Operational Plan. Some strategies, such as our Disability Inclusion Action Plan and Economic Development Strategy, are externally focused, whereas others, such as our ICT Strategy, are internally focused.

Integrated Planning and Reporting (IP&R) framework

Reporting our progress

Reporting is a key element of the IP&R framework. We use a variety of tools to report our progress in achieving this Community Strategic Plan and implementing the Delivery Program, as well as our financial performance against the annual Budget and Long-Term Financial Plan.

Quarterly Budget Review (QBR) Statements

Council prepares a Quarterly Budget Review (QBR) Statement three times each year (first, second and third quarters) which shows, by reference to the estimate of income and expenditure set out in the statement of Council's Revenue Policy in the Operational Plan for the relevant year; a revised estimate of the income and expenditure for that year.

Delivery Program Progress Reports

Every six months, Council prepares a report detailing our progress in achieving the principal activities detailed in the Delivery Program.

Annual Reports

Within five months of the end of each financial year, Council prepares an Annual Report, which includes a copy of our audited financial reports. The Annual Report details our progress in implementing the Delivery Program and the activities we have undertaken to deliver on the objectives of the Community Strategic Plan.

State of our Shire Report

Tabled at the first meeting of the newly elected council, the State of our Shire Report provides an update on our progress in implementing the Community Strategic Plan over the Council term, as well as the results and outcomes the implementation of the Community Strategic Plan has had for our community.

The Liverpool Plains Shire is centrally located in the New England-North West region of New South Wales, strategically nestled in the foothills of the Great Dividing Range. Stretching across 5,086 square kilometres, the Liverpool Plains is home to a vibrant community and offers the best of country living.

The main population centres of Quirindi and Werris Creek are located at the heart of the Shire and are supported by several smaller villages and hamlets including Blackville, Caroon, Currabubula, Pine Ridge, Premer, Spring Ridge, Wallabadah, and Willow Tree.

Extending across the traditional lands of the Kamilaroi people, the Liverpool Plains Shire has a strong Indigenous heritage. Approximately 15 per cent of the local population identify as Aboriginal or Torres Strait Islander, which is significantly higher than the NSW average of 3.4 per cent.

Renowned as the food bowl of New South Wales, the Liverpool Plains Shire is a food and fibre-producing powerhouse. Home to some of the most fertile soils in the world, the shire is known for its rich agricultural land and produces a wide range of crops such as wheat, sorghum, and sunflowers. Livestock farming, including beef cattle, sheep and poultry, also play an important role in the local economy.

Sitting at the junction of the New England and Kamilaroi Highways, the Liverpool Plains Shire is approximately 350 kilometres north of Sydney, 250 kilometres north-west of Newcastle and 60 kilometres south of Tamworth. The shire is bordered by Gunnedah Shire to the north, Tamworth Region to the west, Upper Hunter Shire to the south, and Warrumbungle Shire to the west.

Land use

Total land area: 508,224 hectares

Protected land area: 11,369 hectares

Developing our Community Strategic Plan

Guiding principles

Social justice

Social justice is recognition and action to support the rights of all people. All people have equal economic, social and cultural rights, regardless of gender, age, race, ethnicity, class, religion, disability or sexuality. Everyone should have the opportunity for personal development and be able to fully participate in society without discrimination.

Development of this Community Strategic Plan has been guided by the social justice principles of access, equity, participation, and rights:

Equity

There should be fairness in decision-making and prioritising and allocating resources, particularly for those in need.

Access

All people should have fair access to services, resources and opportunities to improve their quality of life.

Participation

Everyone should be given genuine opportunities to participate in decisions which affect their lives.

Rights

Equal rights should be established and promoted, with opportunities provided for all people from all backgrounds.

The Quadruple Bottom Line (QBL)

The Quadruple Bottom Line (QBL) addresses social (community), environmental, economic, and civic leadership (governance) considerations in an integrated manner. The social justice principles, together with the QBL, ensures a balanced approach is applied to all aspects of this Community Strategic Plan and provides an integrated framework for decision-making towards 2040 and beyond.

Community

Our community offers a great rural lifestyle.

Leadership

Our shire has strong, accountable and trusted leadership.

Environment

Our natural and built environments are valued, sustainable and liveable.

Economy

Our economy is thriving, diverse and growing.

The United Nations (UN) Sustainable Development Goals

The United Nations (UN) Sustainable Development Goals (SDG) are a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity. Australia is one of 193 countries that committed to the goals in September 2015 as part of the 2030 Agenda for Sustainable Development.

There are 17 SDGs which aim to increase global well-being through addressing some of society's key challenges including climate change, economic and gender inequality, sustainable consumption and innovation. Many of the goals are relevant to local governments. Goal 11, to "Make cities and human settlements inclusive, safe, resilient and sustainable", is particularly relevant to local government planning.

Individuals, communities, businesses and all levels of government must work together to achieve these goals by 2030. Each strategic outcome in this Community Strategic Plan works towards a number of these goals.

Planning in partnership

Community engagement

How you participated

Our Community Strategic Plan was prepared in 2022. In reviewing our Community Strategic Plan in November 2024, we asked our community to complete a survey to help us understand if the strategic direction and objectives set out in this document were still current or needed to be refined. We received a total of 33 completed survey responses.

What we asked

- Are you aware of the Liverpool Plains Shire Community Strategic Plan?
- Thinking about our community, what do you consider to be the highest priorities?
- Thinking about our governance and leadership, what do you consider to be the highest priorities?
- Thinking about our environment, what do you consider to be the highest priorities?
- Thinking about our economy, what do you consider to be the highest priorities?
- What do you think is the Liverpool Plains Shire's greatest opportunity, priority or challenge over the next 10–15 years?

What we heard

Strengths

We adopted a strengths-based approach to planning for Liverpool Plains Shire's future and reviewing our Community Strategic Plan. Our beautiful landscape and natural environment are both highly valued, and our community expressed a strong desire to see them protected and preserved into the future. Our wide-open spaces provide the perfect environment to raise a family, and our local facilities, sportsgrounds and community halls are appreciated. Our strong sense of community spirit is celebrated, and we are welcoming of new people and diverse backgrounds.

Challenges

Community feedback identified several key challenges facing the Liverpool Plains Shire. Our population is ageing, meaning ensuring access to quality health and social support services is especially important to our community. Housing affordability and availability is a key concern, impacting our ability to grow our population and attracting more people to relocate and settle in the Liverpool Plains. Improving local infrastructure, including our extensive road network, and access to telecommunications services are both seen as priorities. Achieving economic growth and diversifying local industry was also cited as a challenge facing the Liverpool Plains.

Community priorities

Our community told us that the Liverpool Plains Shire could be enhanced through focusing on the following priorities:

Amenity and presentation

Beautifying and maintaining our town centres and villages and delivering the services and facilities they need to grow and thrive.

Population growth

Growing our local population and promoting the Liverpool Plains as a great place to live, settle and raise a family.

Council performance

Improving Council's financial sustainability, customer responsiveness and overall performance, and ensuring service levels are appropriate and affordable into the future.

Community engagement

Strengthening community engagement and providing opportunities for people to get involved, have their say, and contribute to local decision-making.

Health and social services

Ensuring the Liverpool Plains has access to quality health, medical and social services, including GPs, mental health services, aged care, and childcare.

Economic development

Developing our local economy through attracting investment, marketing the Liverpool Plains as a visitor destination, and supporting our businesses to grow and diversify.

Housing

Facilitating increased housing development to support population and workforce growth and ensure affordable and diverse housing options are available.

Water supply

Continually improving our water infrastructure and network to ensure all members of our community enjoy access to quality water supply.

Achieving our Community Strategic Plan

Liverpool Plains Shire Council is committed to understanding our community's priorities, concerns and needs in critical services, programs, facilities and events. However, all levels of government, as well as businesses, industry groups, community groups and individuals, share responsibility for achieving our Community Strategic Plan.

Council plays a key role in providing essential services and infrastructure to the community. Where Council has a direct service responsibility, it will work with the community to determine appropriate service levels, balancing expectations with financial sustainability. These service levels are outlined in Council's strategic documents, including the Delivery Program and Resourcing Strategy.

Meeting service expectations is challenging within limited resources, particularly as local councils increasingly take on responsibilities previously managed by other levels of government. Expanding or maintaining services may require additional funding, and Council must prioritise investment to ensure long-term sustainability.

While Council leads in service provision, achieving our community's vision relies on strong partnerships and collective action.

This Community Strategic Plan outlines Council's role in the delivery of each priority, described using the following terms:

Leader

Council takes a lead role in delivering infrastructure, providing services and community facilities, as well as in planning and providing strategic direction through policy and practices, to achieve the strategic objective.

Partner

Council takes a partnership role and works with the community, business and industry, other councils, and other tiers of government, to jointly achieve the strategic objective.

Advocate

Council takes an advocacy role and amplifies the voice of our community and works with key decision-makers to get the best possible outcomes, but is not primarily responsible for achieving the strategic objective.
